WHY ACTSOFT? _ _ _ _ _

For almost two decades, Actsoft has been the industry leader in M2M, GPS Tracking, Fleet Tracking, Route and Vehicle Optimization and Wireless Forms for Employee and Business Performance.

FLEET

A white delivery van driving on a road.

TRAILER

A white semi-truck with a long trailer driving on a road.

ASSET

A yellow construction vehicle, possibly a bulldozer or excavator, on a construction site.

FORMS

A man in a blue jacket looking at a smartphone.

DISPATCHING

A worker in a red shirt and white hard hat standing near a crane on a construction site.

TIMEKEEPING

A man in a plaid shirt looking at a smartphone.

FLEET TRACKING

OVERVIEW

Comet Fleet, a cloud and enterprise client solution, uses hard-mounted devices to track any size fleet on easy-to-read maps. You can also locate and manage vehicles at all times; monitor speeds, idling, aggressive driving and stop times and receive reports on this type of behavior and more.

Features:

- View vehicles on detailed maps
- See history, speed and location
- Alerts for speed, stop times and arrivals/departures from landmarks
- Monitor vehicle idling
- Schedule maintenance reminders
- Receive engine code alerts
- Monitor cargo temperature sensors

Benefits:

- Increase worker accountability
- Account for multiple vehicles from one dashboard
- Reduce fuel cost
- Reduce vehicle wear and tear
- Avoid loss of cargo
- Reduce insurance cost
- Improve customer service
- Better management = more jobs

COMET DRIVER LOG. . . .

Comet Driver Log creates, stores and reports your electronic driver daily logs. Gain notifications for failed vehicle inspections. Compliant inspection reports are available on the phone, email and from the web. Comet Driver Log is an easy and reliable way to help transportation companies be fully compliant with Federal Motor Carrier Safety Administration (FMCSA) Hours of Service rules through easy-to-use software.

Features:

- Electronic log books
- Fleet management
- Equipment inspection
- Historical reporting
- Email log directly to DOT officer or print log on site

Benefits:

- Stay in compliance with Federal Motor
- Carrier Safety Administration
- Real-time monitoring of drivers' hours of service (HOS)
- Easily document and archive vehicle inspection
- Report and document inspection failures

DIAGNOSTIC CODES.

Find out immediately what your “check engine” light is trying to tell you with Actsoft’s newest fleet-friendly feature. Next time your engine light comes on Actsoft’s software will send you a hyperlink informing you of the problem. This eliminates guesswork and it will also save you money by letting you know right away what the problem is.

Benefits*:

- Curtail further engine damage
- Avoid possible accidents and reduce liability
- Avoid unnecessary repairs
- Maintain good performance
- Prevents poor fuel economy

DRIVER SCORECARD

Actsoft's NEW Comet Fleet with Driver ID technology puts your fleet on another level of performance. Drivers use a simple and compact key fob to "log into" their vehicle, so every vehicle is associated with a driver. This quickly and accurately lets managers know who is assigned to each vehicle in the fleet and their driving status and location.

Benefits:

- Get reports based on drivers or vehicles
- Keep track of driving time as soon as your driver logs in
- Protect your drivers and vehicles from erroneous claims
- Drivers get convenient reminders to clock in with an alarm
- Monitor driver behavior
- Limit liability by keeping track of your fleet 24/7

TRAILER TRACKING

OVERVIEW. - - - - -

Track your most important assets with pinpoint precision.
Alerts are sent out when unauthorized movement is detected
reducing theft or off-limit usage.

Benefits:

- Monitoring – Responds instantly to pre-defined threshold conditions.
- Visibility – Track equipment, vehicles, heavy cargo and shipments.
- Asset Utilization – Locate equipment closest to job sites.
- Property Protection – Reduce theft, vandalism and unauthorized use.
- Easy to Use – Portable design with OTA (over the air) configuration.

TEMPERATURE SENSOR...

When temperatures are a concern, Actsoft's fleet tracking devices along with the Comet Fleet software solution, can help you stay informed and mitigate loss. Whether your temperature-sensitive items are attached to constant power or deployed in the field, devices are available to suit your needs.

Features:

- Set high and low thresholds
- Device checks every 10 seconds
- Events/alerts sent immediately
- Up to eight zones per device

Benefits:

- Prevent cargo from spoiling
- Protect your investments by getting ample notice if temperature rises or drops
- Reassure your customers that their deliveries are safe with this extra measure of protection

ADVANCED WIRELESS FORMS

OVERVIEW.

Designed for businesses to streamline operations and lose the clipboard, so you have the paperwork, contracts and forms you need wherever you are. Turn any paper form into a wireless clone a convenient and cost-effective alternative that more and more companies are adopting. Run reports and analyze field data and leverage business data like never before, without spending dozens of hours simply press a few buttons and all the information you need comes to you in a single report.

Features:

- Turn any paper form into a wireless form (vehicle inspections, proof of delivery/service, over short damage and etc.)
- Unlimited combinations
- In-form calculation
- Unlimited characters
- Transmit information immediately from the field
- Eliminate dual entry
- Image and signature capture with editing
- Dynamic List

Benefits:

- Save time and paper
- Reduce errors
- Streamline information flow
- Integrate field data with current back-end systems

NFC TECHNOLOGY.

For even more versatility, NFC Technology is featured in both Advanced Wireless Forms and Mobile Timekeeping. By using NFC built right into most smartphones and tablets you're maximizing the potential of what you already hold in your hand.

SEE WHAT YOU CAN DO WITH NFC TODAY!

- Employee ID cards used to verify location, time and attendance
- Pre-screened, quick entry access
- Eliminate "fat fingering" or inputting inaccurate data
- Tagged equipment that can be scanned and accounted for
- Employee ID's for verification
- In-building location validation
- Customer visit validation
- Asset and inventory tracking jobsite and worker

SIGNATURE CAPTURE.

Keep business moving with Actsoft's reliable and convenient Signature Capture feature. Used in tandem with Advanced Wireless Forms, you can capture signatures for everything from delivery confirmations to accident reports and so much more. Additionally, you can email signatures immediately – so no waiting to return to the office or fly back into town to deliver important contracts.

Features:

- Accurate signatures captured 24/7
- Get signatures even without internet connection, save and upload later
- Use on any of Actsoft's custom forms or apps
- Efficiently manage orders and inventory

Benefits:

- Don't waste time trying to understand handwriting
- Going paper-free means no mailing costs
- Eliminate forgery
- Reduce human error

DYNAMIC LIST. . . .

Now you can have the most current information automatically populate your forms and spreadsheets with the handy Dynamic Lists feature. Using a master spreadsheet, your forms will automatically populate fields with corresponding information. As you update or make changes to the spreadsheet, your forms will also be updated – so you can rest easy that the latest information is what's on your forms.

Features:

- Link to clients, landmarks, employees, items and assets
- Connect to another database and lists get updated based on changes

Benefits:

- Mobile employees have up-to-date information
- Updates sent moments after changes
- Reduce time and errors

TIMEKEEPING

OVERVIEW. - - - - -

With Timekeeping you can easily and reliably maintain accurate time records from the field, control overtime, track duration of jobs and reduce or eliminate payroll errors. Using GPS technology, employees can simply use their smart phone or tablet as their time clock – so keeping track of who's on the job, where and when is easy and convenient.

Features:

- Eliminate unnecessary trips to the office- employees clock-in at job site
- Reduces overtime - verify hours worked with GPS accuracy
- Track the duration of tasks or jobs
- View status of all employees at one time – no guess work
- Clock multiple employees in/out for breaks, lunches, or shifts from single wireless device
- Editable time entries reduce errors before data goes to payroll
- No need to wait on paper time sheets – Supervisor sends time sheets to payroll for accurate processing each day
