

**Building Relationships.
Creating Solutions.
Delivering Results. Worldwide.**
Actsoft.com

Why Actsoft?

We provide the tools and resources that help make the most of an organization by increasing its ability to maximize efficiency and reduce unnecessary waste. We do this by helping businesses and organizations make smarter dispatching decisions, monitor drivers for fuel-burning and safety behavior, and alleviate paper-based processes. **We also help agencies adhere with the OMB and NARA requirement to be paperless by 2022.**

- We have worked with various government agencies during emergency events.
- During Hurricane Sandy, we helped FEMA expedite their damage assessment through the use of our Wireless Forms and GPS Tracking.
- We support multiple state and local governments nationwide through the use of our platforms via multiple wireless carrier partnerships.
