

TeamWherx™ Overview

TeamWherx™ is a cloud-based solution that provides the tools to help you effectively coordinate your operations from a single platform. With a user-friendly, yet intuitive interface, TeamWherx™ allows your organization to reach its fullest potential with a suite of digital features.

Does Your Business Face:

- Managers who struggle because they can't immediately access timesheets, orders, or other forms?
- Confusion stemming from using multiple platforms to track employees and assets?
- Inefficiencies related to paperwork, such as illegible handwriting, loss of physical documents, or incorrect data entry?

Why TeamWherx™?

- Streamline your business practices by automating and digitizing your current processes, helping reduce your overall labor expenses.
- Minimize errors and help you complete jobs the right way, the first time around, for an improved customer experience.
- Use your smart devices to record what your employees work on, where they work, and how long they spend working.

Key Features

- **Mobile Timekeeping:** Eliminate unnecessary trips back to your home base and free up more time for your employees to get things done via electronic time punches. Time, date, and location are captured and available for review at any time.
- **Job Dispatching:** Make work order information available to employees nearly instantly via mobile phones or tablet devices. Create, send, and manage work orders from the office to the field quickly and efficiently.
- **Wireless Forms:** Replace and enhance your paper forms with features like photo capture, built-in calculation tools, and emails for quick digital

receipts. Customize pre-built form templates to reduce errors and eliminate unnecessary printing to save money.

- **GPS Tracking:** Locate your fleet vehicles or assets at any time, as well as employees during working hours. This feature helps with everything from equipment security to driver accountability.
- **Fleet Tracking:** Pinpoint your vehicles from any web browser with easy-to-install tracking devices. Help minimize vehicle loss and theft, since you always know where your vehicles are and when they are moving.
- **Asset Tracking:** Manage your assets with alerts and reports regarding their movements. Motion-based GPS-tracking technology in flexible and smart, battery-operated devices helps you keep tabs on the assets and equipment you need to move your business forward.
- **Mobile Payments:** Mobile Payments, Powered by Stripe, allows your employees in the field to bill for provided services via mobile devices.
- **Intra-Company Messaging:** Digitally communicate with your mobile employees via desktop-to-handset integration to strengthen connectivity between the field and the office.
- **Manager App:** Coordinate your workforce while on the go and gain all the functionality the TeamWherx™ web app provides from a mobile device.
