

# Form: Example Application

## Do you know ...

Our **custom trailer inventory checklists** help companies conduct thorough inspections to ensure necessary equipment is available for the job?

- Parts and equipment can be digitally logged as when loaded on/off trailers.
- Details and explanations can be added to the comment fields.
- When additional materials are needed, employees can notify the office via the digital form.

The dynamic process helps **reduce shrinkage and improve efficiency** at each job site.
