

Do you know ...

Our **Building Permit forms** allows contractors or property owners to submit digital applications for construction or modification of structures?

- Public Forms minimize the amount of paperwork handled by the government entities responsible for reviewing/approving applications.
- Handwritten and data entry mistakes are eliminated – along with paper-based clutter and headaches.
- The digital process is easier, faster, and more convenient to manage.

The digital Public Forms result in **faster processing times** and **fewer delays** to construction projects.
