Do you know …

Example Application

Our **Timekeeping** module makes it easy to track employee time punches and collect vital information?

- Time punches are collected in the field digitally and sent to the application in near real-time.
- Form fields attached to Clock In/Out punches can collect additional information like:
  - Job codes
  - Payroll codes
  - Employee numbers
  - Employee badge scans
  - Signatures
- Timekeeping records can be easily created, modified, and approved by management from within the application.

The Timekeeping module **streamlines the process of creating timesheets** with simple yet powerful tools**.**

Clock out : 1:18 PM
