Mission:

About

We compassionately serve Denver residents by connecting them to basic needs, protective services, and community supports to improve their well-being.

At Denver Human Services (DHS), we envision a healthy community where people are connected, supported, safe and well. One in three people in Denver turn to DHS for support at all stages of life. Our employees help children, older adults, families, and individuals navigate social and economic pressures by connecting them to services and experts who support their overall well-being.
