### Mission:

Denver Community Media's mission is to build and strengthen community through media by providing and safeguarding affordable access to tools, training and a creative space, to enable free expression and digital equity. We are the City and County of Denver's public and educational access television and video production program. Our focus is on workforce development and opportunity. Our goal is to bridge the digital divide and provide equitable access to equipment that is an expensive barrier for entry into multi-media creation to those who can't afford it. We exist to break down those barriers and provide an opportunity for all residents of Colorado to share their message, tell their story and "hit record."

### Contacts and Stakeholders Information:
