Mission:

Welcome to Denver Technology Services, the central information technology department for the City and County of Denver. We provide comprehensive technology solutions, including infrastructure support, strategic planning, and innovative applications for all city departments. Our organization, ranging from the Chief Information Officer's office to Infrastructure and Operations, Digital Experience, Applications, Program Management, and Data Tools and Governance, work collaboratively to ensure efficient and secure technology services. At Denver Technology Services, we are dedicated to advancing technology to enhance communication, improve efficiency, and safeguard data for the benefit of our city and its residents.
