## Mission:

The mission of the Emergency Management Department (EMD) is to provide Citywide emergency management program leadership, continuity, and direction to enable the City and its partners to respond to, recover from, and mitigate the impact of natural, manmade, or technological disasters upon its people and property. Although the Department was established in July 2000, its lineage and the City's commitment to disaster preparedness are decades old.

The Department coordinates the interdepartmental preparedness, planning, training and recovery activities of the City's Emergency Operations Organization, its divisions and all City departments. Additionally, it serves as the City's emergency preparedness liaison with other municipalities, state and federal agencies, and the private sector; and performs related education and community preparedness activities.

## Contacts and Stakeholders Information:

Carol P. Parks - General Manager
