Mission:

To best serve the City of Los Angeles, the Information Technology Agency (ITA) works to be a best-in-class technology department that demonstrates Responsive, Responsible, and Excellent Information Technology:

The Information Technology Agency (ITA) is responsible for planning, designing, implementing, operating and coordinating the City's information technology systems and networks, and for the delivery of information processing and communications services. This department provides all telecommunications regulatory services, cable television licensing and franchise enforcement, municipal cable programming and utilization, operates the City's cable channel, and related matters.
