Mission:

The Martín Peña Canal ENLACE Project is the umbrella project for three entities working for the physical, environmental, and socioeconomic development of the eight communities bordering the Martín Peña Canal. G-8 Inc. and its residents have developed strategies to be implemented in their communities. These interventions have been recognized by Law 489-2004 to be executed through ENLACE and will remain for the benefit of the community through the Land Trust and its members. Thus, the Plan for the Comprehensive Development and Land Use of the Martín Peña Canal Special Planning District has become public policy. This effort is supported by a large group of allies and collaborators, including universities, foundations, businesses, and government agencies.

Contacts and Stakeholders Information:

The director of Puerto Rico's ENLACE Project Corporation of the Martín Peña Canal is Mario Núñez Mercado. He serves as the Executive Director of the corporation and holds the position of Executive Director.
