### Mission:

The State Insurance Fund was established by Act No. 45 of April 18, 1935, as amended, known as the Workers' Compensation System Act. On October 29, 1992, Act No. 83 established the State Insurance Fund Corporation, the Office of the Administrator, a Board of Directors, and an Industrial Medical Council. The Workers' Compensation Act is compulsory and exclusive in nature, applicable to all employers who employ one or more workers in any economic activity, with the exception of homework and casual labor not included in the employer's business, industry, occupation, or profession. The act places workers' compensation insurance exclusively in the hands of the State. To promote the well-being of Puerto Rico's working class through the fair provision of services to workers affected by occupational accidents or illnesses and to guarantee compensation for death, accidents, or illnesses causing disability arising from their occupation through the payment of premiums to workers or their beneficiaries. Furthermore, to provide methods to make this obligation more effective through the regulation and administration of workers' and employers' insurance.
