Mission:
About Us
Seattle Information Technology (IT) provides secure, reliable, and compliant technologies that improve government service. Our team delivers equitable and responsive technological solutions to the city workforce and residents of Seattle.

Some of the services the department provides include telecommunications and data networking.
supporting physical infrastructure; developing and managing applications; application infrastructure; administering data centers, servers, storage, cloud platforms, and backup equipment; supporting desktop, mobile, and printing devices; protecting the City's data and technology assets; and delivering the digital tools necessary to engage with our public.
